An iOS app that displays interactive maps of food trucks near the user's location. Users can also search for trucks by keyword or food type and follow favorites.

IONIC

ANGULARJS

GOOGLE MAPS API

BOWER

Fetch

An Uber-interface browser app that allows users to post open requests for drivers to view and accept, and cancel them or remove them upon fulfillment.

AJAX

UNDERScore.JS

JQUERY

HTML CSS

Fartsy

A faux eCommerce browser app that displays items pulled from the Etsy API in a master/detail view and allows users to add items to a live-updating cart.

ETSY API

ANGULARJS

BOOTSTRAP

BOWER

Honebrew

A browser app that uses the BreweryDB API to generate a map of breweries within the given radius of the user's location.

BREWERYDB API

AJAX

GOOGLE MAPS API

UNDERScore.JS

WORK

Bell Valet Attendant, The Restoration — 2015-2016

Ensured smooth arrivals and departures at a AAA four-diamond boutique hotel.

VOLUNTEER

Event Registration, DIG SOUTH — Spring 2016

Checked in attendees and fielded questions about Charleston and the festival

Charleston Kids Academy Instructor, The Iron Yard — Spring 2016

Led group lectures on HTML and CSS fundamentals and provided one-on-one instruction for middle school students.

Rebuild Intern, lowernine.org — Spring 2013

Trained and supervised volunteers on job sites, assisted with rebuild projects, managed tool inventory and enforced job site safety standards.
